EXPERIENCE

Mira Advanced Engineering

JavaScript MERN Stack Developer

📅 July 2023 - Aug 2023 📍 Mumbai, India

- During my internship as a JavaScript MERN stack developer, I had the privilege of working on a variety of projects. I extensively utilized JavaScript, React.js, Node.js, and Express.js to build robust web applications.
- Additionally, I gained hands-on experience with Firebase for real-time data management and MongoDB for effective database handling. These experiences significantly enhanced my proficiency in the MERN stack, empowering me with the skills needed for full-stack web development.

Trivia Softwares

Java Developer

📅 Jan 2023 📍 Mumbai, India

- Contributed to the design, development using Java SE 14 technologies.
- Implemented a Management System Design Project with GUI using Swings, ORM with Hibernate Framework for Oracle Database, and integrated JFreeCharts for chart functionalities.

CERTIFICATES

- Django Web Framework & REST API (September 2023)
- Fundamentals of Visualization with Tableau (Aug 2023)
- Python with Data Structures, Data Bases and Data Science (Aug 2023)
- JavaScript MERN Full Stack (July 2023)
- Complete Java with Desktop and Web App Development (July 2022 - Oct 2022)
- Certificate of completion in Complete Python Bootcamp by Udemy (Feb 2022)

TECHNICAL SKILLS

- Programming Languages: Java, JavaScript, Python
- Frameworks and Libraries: HTML, CSS, ReactJs, NodeJs, ExpressJs, MySQL, Firebase, MongoDB, Bootstrap, Django.
- Version Control: Git, Github.

PERSONAL SKILLS

- Having Leadership Qualities.
- Ability to work under pressure.
- Comfortable Working Independently.
- Ability to take initiative to solve problems.

EDUCATION

BSc. (IT) - 8.12 CGPA

University of Mumbai

📅 September 2020 - 2023

Higher Secondary - 56%

S.M.P.R Jr. College

📅 2020

Secondary - 82%

St. George High School

📅 2018

PROJECTS

Car Selector App (ReactJs | Firebase)

August 2023

- Easily search for cars through API integration, apply advanced filters, and explore detailed specifications.
- With user authentication features, including login, signup, and password management, it's a secure and convenient tool for all your automotive needs.
- Get ready to find your dream car effortlessly with CarQuill!

Student Management System (Java | JDBC | MySQL)

January 2023

- Developed a Desktop Application designed to track and manage all the data created by the school such as a student's grades, attendance, interpersonal activity records, etc., as well as other school-related data.
- Implemented comprehensive data validations at each step to ensure the accuracy and integrity of employee information, reducing errors and improving data reliability.

Gym Management System (Java | JSP | JDBC | MySQL)

October 2022 - March 2023

- Designed and developed a comprehensive Gym Management System enabling users to purchase memberships, access features based on their membership level, and authenticate their accounts via email.
- Implemented a user-friendly interface for adding, removing, updating, and viewing member details, including personal information, membership status, ensuring efficient management of gym members.
